TELEMEDICINE

Global Telemedicine Market Size, 2018 and 2026 (USD Billion)

The global telemedicine market size stood at **USD34,2billion** in **2018** and is projected to reach **USD 185,66billion** by **2026**, exhibiting a GAGR of 23,5% in the forecast period

BENEFITS

- Telemedicine has distinct healthcare benefits that will change the face of care delivery today, and for years to come.
- Save money and time
- Strengthen physician-patient relationships
- Reduces the spread of infectious diseases
- Chronically ill patients can receive daily monitoring in the comfort of their homes
- Reduce readmissions, ER visits, and patient transfers.
- Improve access to care
- Doctors can now track and monitor blood pressure, glucose and other vital signs in real-time.

MEDICAL ADVICE ONLINE

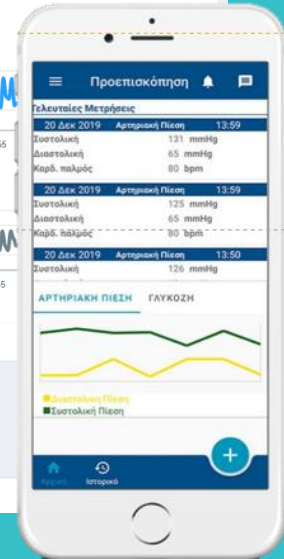

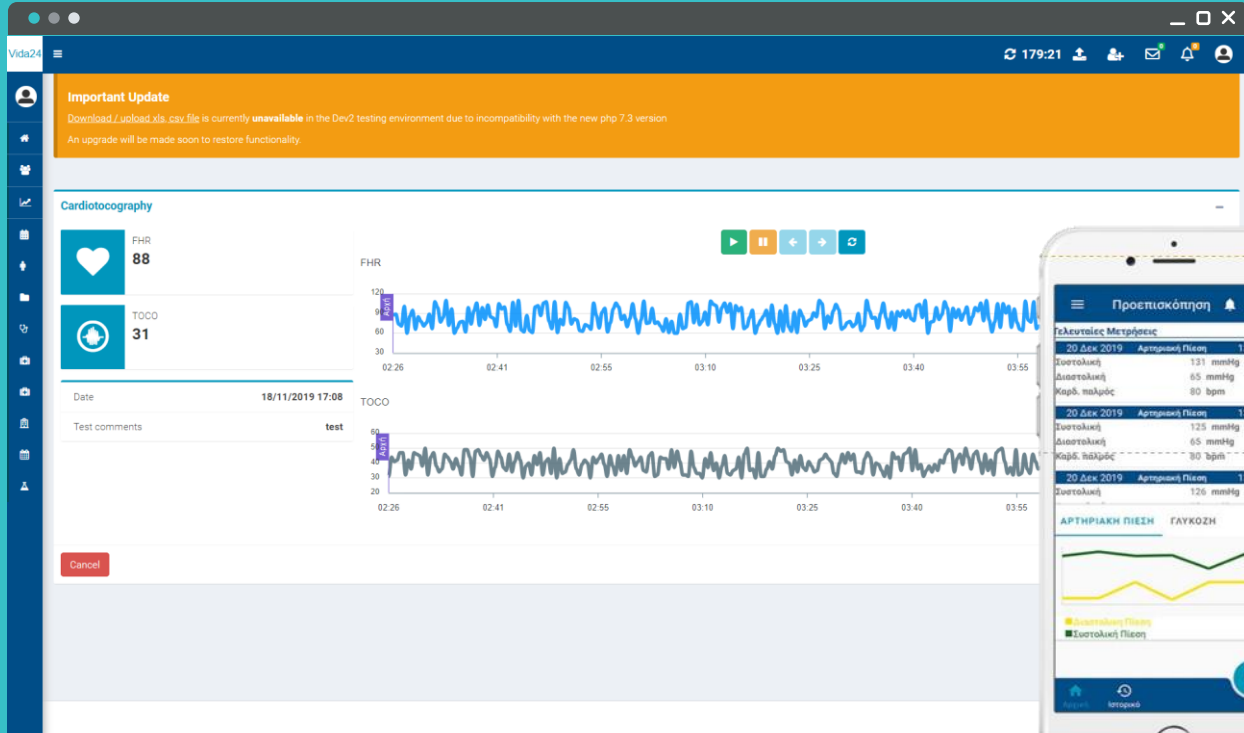

PRESCRIPTION COMPLIANCE

DOCTOR ON DEMAND (VIDEOCONFERENCE)
